Subject: Letter of Recommendation CSG LLP

Dear Sir/Madam,

This is to confirm that A&S LTD. Ship Repairs and Marine Suppliers has been our Contractor in Republic of Azerbaijan for dry docking and repair services of our vessels, Caspian Spider and Caspian Maria during winters of 2012/13 and 2013/14 respectively. We engaged A&S to undertake the scopes for purpose of class renewal schedule.

We found that A&S personnel include high level engineers and service men having profound experience in all sorts of shipyard operations. The management of A&S always promptly and timely responded to requests of whatever kind to properly and with due excellence provide for, and perform, all work scopes as per our required Specifications, and meeting IACS standards.

A&S has at its disposal all the necessary equipment and materials to carry out ship repairs and renewals. A&S further maintains good business relationships with dry docks, workshops and repair yards and can draw on those other facilities when needed. Such an approach is a strong factor of particular importance when it comes to quickly solving problems.

Once all repair jobs were completed by A&S, and after sea trial the classification society accepted the job without any claims or objections. Being ship owners, we are interested very much in timely completion of all repair work scope whilst minimizing, where possible, overhead expenses. A&S met these criteria in a professional manner.

We are looking forward to further cooperation with A&S LTD. Ship Repairs and Marine Suppliers for docking the vessels and find them to be professionals of a high level able to render the relevant services with prime quality.

Yours faithfully,

Arran Watson  
Director
