A&S Ltd. has carried out the dry-docking repair works of our vessels in their shipyard at Baku in a short time frame. A&S has very strong engineering and labor force for such works.

A&S LTD is one of the important partner in Caspian region which is able to carry out services such as repair and modification of vessels at professional level.

The Company's organization is aimed to provide efficient, timely and solution making works in very tough and difficult circumstances with their fully equipped base and dock.

We, strongly recommend A&S Ltd. for ship repair and modification works in the Caspian region as a reliable partner.

Faithfully yours
